

ResearchCoin — Section 5.1 cohort: large allocations

All 21 addresses · 46,475,863 RSC · source: rsc-historical-distribution-and-flows.html §5.1

COHORT RULE – APPLIED MECHANICALLY TO FUNDING HISTORY, NOT BY JUDGEMENT

At least 1,000,000 RSC received, the majority of it from the ResearchHub complex, across six or fewer transfers from the complex. Applied after the complex itself and before the staking-relay rule, so any wallet sending 90% or more of its outflow to the staking vault is excluded and sits in a separate cohort of three. The shape reads as investors, founders' allocations and standalone grants.

READ THESE THREE CAVEATS BEFORE REVIEWING

- 1. No address here carries an ENS name or an explorer label. None is attributed to a named person or fund — size, date and disposal are all that can be shown.
- 2. **Sold** counts RSC arriving at an exchange *directly* from the address named. Deposits routed through an intermediate wallet are not followed, so some zeros understate disposal. One case is proven and flagged below.
- 3. Two entries are market plumbing rather than grants to a holder — together 12,365,304 RSC of the 46,475,863 total. Both are flagged.

FULL ADDRESS – CLICK TO OPEN THE RSC TOKEN PAGE		RECEIVED FROM THE COMPLEX	DISPOSAL AND CURRENT HOLDING
0xe4758f7695359de463bd29719f3c5a9c29b2aa7f	BASE	10,000,000 RSC \$6,849,883 at the price on each transfer date first seen 2024-11-24	no transfer to an exchange directly from this address holds nothing today Pass-through conduit, not a beneficiary — forwards everything it receives and holds nothing.
0xdfb1fb219d2610a4784a7ddc31d9bac72aae1d58	ETHEREUM	6,718,750 RSC \$243,052 at the price on each transfer date first seen 2021-12-22	no transfer to an exchange directly from this address holds nothing today
0xa0ed916ae9bf1c1b976eabfe0d2334548d7487ef	BASE	3,600,000 RSC \$1,747,463 at the price on each transfer date first seen 2024-05-20	no transfer to an exchange directly from this address holds nothing today
0x78512797c137c6ad590af90943543457d74d986d	BASE	2,365,304 RSC \$789,123 at the price on each transfer date first seen 2025-10-10	no transfer to an exchange directly from this address holds nothing today Pass-through conduit. Sent 500,000 RSC on to Coinbase via an intermediate wallet 33 minutes after receipt — a disposal the Sold column shows as 0, because that column counts only direct transfers to an exchange.
0x8ae505f6f7f0ebebaff8d458ea93b13db46f0430	ETHEREUM	2,078,869 RSC \$45,129 at the price on each transfer date first seen 2022-02-09	sold 2,025,337 RSC for \$39,274 holds nothing today
0x79aa5bc65439a46b227789b85b408cb8a2d9b77e	ETHEREUM	2,000,000 RSC \$233,200 at the price on each transfer date first seen 2026-01-01	no transfer to an exchange directly from this address holds nothing today

Addresses were recovered from chain, not from a stored list: each wallet's first-seen date was scanned on the relevant network and the truncated form in the source document matched against that day's transfer participants. 31 of the 33 addresses across both sheets reproduce the document's *still held* figure to the token. The two that differ hold more, by exactly the amount each receives in the monthly payroll batch, and are marked. Balances re-read 15 September 2026. Links open the RSC token page for that address on the network it was paid on.
